

1. Add phone number underneath logo.
2. Add the Filter by Keyword standard search box from our standard template to the page right above the Filter by Category box

3. From our standard template add the "Register" and "Login" links to the top of the page
4. To the bottom of the page add
 - a. Home
 - b. About Us
 - c. Privacy Policy
 - d. Return Policy
 - e. Contact Us
 - f. Store Location and Hours
 - g. Credit Card Logos (see <http://www.manciniracing.com/> for ideas)
 - h. Add Connect with Us section
 - i. Repeat the phone number
5. To the links at the top (Catalog, Instructions ..., Dyno ...) please add "Brands we Carry" right in the middle
6. Remove the Product Brands We Carry Section
7. Add a "Why we are Famous" section right below the Orange box that says "Hughes Engines, Inc is a Mopar" In the design title the section Why we are Famous and then fill it with three lines of latin.
8. Update the look of the footer. Please see the footer on this website <http://www.manciniracing.com/>
You don't need to add more information it is an idea for formatting
9. Add an area above News & Updates. Insert an area where Hughes will be able to maintain their own HTML. They are very active in the maintenance of their existing site and we want to give them an area that they can maintain themselves. This would be in addition to the News and Updates area that you have already provided. For now insert some of the items that appear in the middle of their current website. These are the type of items that they will be maintaining.
