

TCI[®] Premium Series Flexplates

Ashland, MS – TCI introduces premium flexplates for a variety of stock to mild performance GM and Ford applications.

The TCI Premium Series Flexplates are designed to be an upgraded replacement for factory units. Precision manufactured and featuring a premium E-Coat finish that resists corrosion from salt and road grime, they are a more durable and longer lasting option than commonly available budget flexplates.

Spin balanced to ensure vibration-free operation and to meet factory balance specifications for both internally and externally balanced engines, they are the perfect replacement for any stock to mild performance vehicle.

Part #399601

Part #529102

Quick Facts

Product: TCI Premium Flexplates
Part Number: See Application Chart
Street Price: See Application Chart

Social Media Pitch: New Premium Series Flexplates from TCI replace stock units with durable E-Coat feature to protect against corrosion and grime and improve durability.

Features & Benefits:

- Durable E-Coat finish prevents corrosion from salt & road grime
- Longer usable life than stock equivalent
- Precision manufactured to meet or exceed OEM standards, ensuring excellent fitment
- Meets factory balance specifications for both internally and external balance engines
