

# Race With The Advantage Of A TCI<sup>®</sup> Automatic

## **Circlematic™ Transmissions**

With up to 50% less rotating mass and the ability to make full throttle up-shifts, our automatic transmissions deliver quicker starts and more engine braking for better deceleration.

Available for GM Powerglide, GM TH350 & Ford C4 drivetrains

## **FastLap™ Torque Converters**

Race-engineered torque converter technology provides increased torque multiplication for quicker restarts, maximum corner exit acceleration and improved engine braking on corner entry.

Available for GM Powerglide, GM TH350 & Ford C4 drivetrains

## **Max Shift™ Circle Track ATF**

Specially blended ATF increases the life of clutches & bands. Designed for both converter & direct drive racing automatics.
